Personal AI Agent: shatadalpersonalassistant.vercel.app — built & deployed by me; ask it anything about my background

PROFESSIONAL SUMMARY

Senior Front-End Developer with 4+ years of experience building high-performance web applications across SaaS, EdTech, and PropTech domains. Specialises in React.js, Next.js, and TypeScript on the front end, with additional experience in Angular for component-driven UI development. Hands-on backend experience in Node.js, EJS templating, and MongoDB, with a growing focus on building and deploying personal AI agents. Proven track record in leading product development, integrating payment gateways, designing REST APIs, and leveraging AI-assisted workflows, consistently delivering clean, scalable solutions in cross-functional teams.

WORK EXPERIENCE

Senior Front-End Developer

Aug 2024 – Present

Webskitters Technology Solutions Pvt. Ltd. Kolkata, India

WebSkitters Academy – Student CRM Portal (In-house Product Front-End Lead)

- Led front-end development from scratch, owning architecture and delivery across the full product lifecycle.
- Built a scalable component system using Next.js, TypeScript, and Material UI actively serving hundreds of students and admins.
- Converted Figma wireframes into pixel-perfect, fully responsive pages with zero design debt.
- Collaborated with back-end engineers on REST API integration, defining consistent data-flow and error-handling patterns.
- Integrated Razorpay, Cashfree, and Instamojo payment gateways for real-time fee collection with automated confirmation workflows.
- Achieved sub-2s LCP on key pages, directly improving user retention metrics.

Qpulse AI-Powered Resume Builder (Client Project USA)

- Built an AI-driven resume builder and admin dashboard using Next.js and TypeScript with multiple AI model backends.
- Developed personalised career roadmap features and a real-time AI chatbot for end-to-end interactive experience.
- Assisted in lightweight backend tasks — built and consumed Node.js REST APIs for data persistence and user session management.
- Leveraged AI coding assistants (Claude AI, Amazon Q, GLM AI) to accelerate feature delivery and streamline code reviews.

Personal AI Agent — Shatadal Personal Assistant (Self-Initiated Project)

- Designed and deployed a personal conversational AI agent that answers questions about my background, skills, and experience on my behalf, available at shatadalpersonalassistant.vercel.app.
- Built end-to-end as a light full-stack project, handling both the front-end interface and the backend/agent logic.

- Applied AI-assisted development practices to design, build, and deploy the agent independently, reflecting growing full-stack and AI-agent capability.

Front-End Developer

Jun 2023 – Aug 2024

Ebrotech Software Solutions Pvt. Ltd. Kolkata, India

Tenant Management System

- Designed and built the full UI for a web and mobile rent management app — tenant records, rent tracking, and landlord dashboards using React.js and Ant Design.
- Integrated MongoDB-backed REST APIs for real-time data sync; maintained 99% uptime through thorough end-to-end testing.

Visitor Management Platform

- Built a type-safe visitor scheduling system with React.js and TypeScript; strict typing and validation reduced runtime bugs by ~40%.
- Contributed to lightweight backend routes using Node.js and EJS for server-side rendered admin views.

Entra Office App

- Built a feature-rich office management application covering meeting room bookings, visitor tracking, staff management, and expense reporting.
- Worked on select Angular-based modules for internal dashboard views, gaining hands-on experience with Angular components and services.

Front-End Developer

Jul 2022 – May 2023

Brenolabs Pvt. Ltd. Kolkata, India

- **Doctor Appointment System:** Delivered a responsive doctor availability and booking platform using React.js, Bootstrap, and Tailwind CSS.
- **School Management System:** Contributed to a centralised school operations platform using HTML5, CSS3, and JavaScript, with Node.js + MongoDB powering the backend.

Front-End Developer Intern

Sep 2021 – Feb 2022

Brenolabs Pvt. Ltd. Kolkata, India

- Built the front-end of a full-featured e-commerce platform - product listings, shopping cart, authentication, and payment integration using React.js, TypeScript, HTML5, CSS3, and Bootstrap.
- Gained initial exposure to Node.js/Express backend patterns and MongoDB data modelling during the project.

TECHNICAL SKILLS

Front-End	React.js, Next.js, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3
Back-End	Node.js, Express.js, EJS, REST API Design & Integration
AI Agents & Tooling	Built and deployed a personal conversational AI agent (live demo: shatadalpersonalassistant.vercel.app); comfortable working as a light full-stack developer using AI-assisted tooling
Database	MongoDB, Mongoose
State Management	Redux, Context API, React Query
UI Libraries	Material UI (MUI), Ant Design, Tailwind CSS, SCSS/SASS, Bootstrap

Payment Gateways	Razorpay, Cashfree, Instamojo
Tools & Workflow	Git/GitHub, VS Code, Figma, Performance Optimisation, Agile / Scrum
AI Dev Tools	Claude AI, Amazon Q, GLM AI, Antigravity AI
Soft Skills	Front-End Leadership, Cross-functional Collaboration, Clean Code Practices

EDUCATION

B.Tech in Computer Science & Engineering

Maulana Abul Kalam Azad University of Technology (MAKAUT)

2018 – 2022

CGPA: 8.57/10
